Teaser

Introduction:\* What is the mystery of the Ice Age?

Physical evidence of a past Ice Age

Scientist originally wouldn't believe the evidence!

What was the extent of the ice in the Ice Age?

The mystery: What caused the Ice Age?

What solutions have been put forward?

The Secular Ice Age Model: Milankovitch cycles

Problem: Milankovitch cycles don't produce enough cooling!

The secondary hypothesis: Positive feedback from CO<sub>2</sub>

Secular scientists have concluded Earth's climate is an unstable system

Climate alarmism is a by-product of an unbiblical Ice Age model

Problem: Positive feedback (producing cooling) isn't enough; much more precipitation is needed!

Problem: The geologic record doesn't match expectations about past ice ages

Mysteries within mysteries for the secular theory

The Biblical Ice Age Model: The aftermath of the Flood—which was a catastrophic, global, tectonic event

Global volcanic activity blocked sunlight

Global tectonic activity warmed the oceans

Solving mysteries around Ice Age animals

Earth's climate is stable!

Ice Age land bridges help to explain human and animal dispersal

Solving the mystery of the mass extinction event at the end of the Ice Age

Why secular 'Snowball Earth'? ideas fail

Solving the mystery of the lush, green Sahara

Conclusion:\* The Bible's account of history makes sense of the world we live in!
