Dr. Seuss

Philip Nel takes a fascinating look into the key aspects of Seuss's career - his poetry, politics, art, marketing, and place in the popular imagination.\" \"Nel argues convincingly that Dr. Seuss is one of the most influential poets in America. His nonsense verse, like that of Lewis Carroll and Edward Lear, has changed language itself, giving us new words like \"nerd.\" And Seuss's famously loopy artistic style - what Nel terms an \"energetic cartoon surrealism\" - has been equally important, inspiring artists like filmmaker Tim Burton and illustrator Lane Smith. --from back cover

50 Dinosaur Tales

\“Gualicho takes a bite out of the ornithopod’s back as it runs away from her, causing it to stumble and fall. She jumps on top of the body and rips open its neck with her teeth. The ornithopod becomes still and limp. Satisfied, Gualicho begins to feast. But, after only two bites, she senses something is wrong. She lifts her head and sees a Mapusaurus making its way toward her.\” Blending fiction with fact, 50 Dinosaur Tales imagines the way 50 newly described dinosaurs from the Triassic, Jurassic, and Cretaceous lived in their natural habitats. Also included is a list of fun facts for each dinosaur story, and facts about 108 additional dinosaurs. If you want to hear more about new dinosaurs as soon as they are discovered, listen to the weekly podcast I Know Dino. \“50 Dinosaur Tales: And 108 More Discoveries From the Golden Age of Dinos is the perfect blend of education and entertainment, as both young and old readers are invited to see the world through a very different set of eyes.
