

Around the World in 80 Books

A transporting and illuminating voyage around the globe, through classic and modern literary works that are in conversation with one another and with the world around them *Featured in the Chicago Tribune's Great 2021 Fall Book Preview * One of Smithsonian Magazine's Ten Best Books About Travel of 2021* Inspired by Jules Verne's hero Phileas Fogg, David Damrosch, chair of Harvard University's department of comparative literature and founder of Harvard's Institute for World Literature, set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe. Following a literary itinerary from London to Venice, Tehran and points beyond, and via authors from Woolf and Dante to Nobel Prize-winners Orhan Pamuk, Wole Soyinka, Mo Yan, and Olga Tokarczuk, he explores how these works have shaped our idea of the world, and the ways in which the world bleeds into literature. To chart the expansive landscape of world literature today, Damrosch explores how writers live in two very different worlds: the world of their personal experience and the world of books that have enabled great writers to give shape and meaning to their lives. In his literary cartography, Damrosch includes compelling contemporary works as well as perennial classics, hard-bitten crime fiction as well as haunting works of fantasy, and the formative tales that introduce us as children to the world we're entering. Taken together, these eighty titles offer us fresh perspective on enduring problems, from the social consequences of epidemics to the rising inequality that Thomas More designed Utopia to combat, as well as the patriarchal structures within and against which many of these books' heroines have to struggle—from the work of Murasaki Shikibu a millennium ago to Margaret Atwood today. *Around the World in 80 Books* is a global invitation to look beyond ourselves and our surroundings, and to see our world and its literature in new ways.

The Little Book of Breaking 80 - How to Shoot in the 70s (Almost) Every Time You Play Golf

Shane Jones had been a golf enthusiast for many years, yet he rarely broke 80 in his games. He watched what others did and found that golfers, non-professional and professional alike, shared common traits for a good game. He compiled what he noticed, put it to practice, and wrote this book about his findings.

Norco '80

5 young men. 32 destroyed police vehicles. 1 spectacular bank robbery. This “cinematic” true crime story transports readers to the scene of one of the most shocking bank heists in U.S. history—a crime that's almost too wild to be real (The New York Times Book Review). *Norco '80* tells the story of how five heavily armed young men—led by an apocalyptic born-again Christian—attempted a bank robbery that turned into one of the most violent criminal events in U.S. history, forever changing the face of American law enforcement. Part action thriller and part courtroom drama, this Edgar Award finalist for Best Fact Crime transports the reader back to the Southern California of the 1970s, an era of predatory evangelical gurus, doomsday predictions, megachurches, and soaring crime rates, with the threat of nuclear obliteration looming over it all. In this riveting true story, a group of landscapers transforms into a murderous gang of bank robbers armed to the teeth with military-grade weapons. Their desperate getaway turns the surrounding towns into war zones. And when it's over, three are dead and close to twenty wounded; a police helicopter has been forced down from the sky, and thirty-two police vehicles have been completely demolished by thousands of rounds of ammo. The resulting trial shakes the community to the core, raising many issues that continue to plague society today: from the epidemic of post-traumatic stress disorder within law enforcement to religious extremism and the militarization of local police forces.

The 80/80 Marriage

NAMED ONE OF COSMOPOLITAN'S "15 BEST MARRIAGE BOOKS ALL COUPLES SHOULD READ." An accessible, transformative guide for couples seeking greater love, connection, and intimacy in our modern world Nate and Kaley Klemp were both successful in their careers, consulting for high-powered companies around the world. Their work as mindfulness and leadership experts, however, often fell to the wayside when they came home in the evening, only to end up fighting about fairness in their marriage. They believed in a model where each partner contributed equally and fairness ruled, but, in reality, they were finding that balance near impossible to achieve. From this frustration, they developed the idea of the 80/80 marriage, a new model for balancing career, family, and love. The 80/80 Marriage pushes couples beyond the limited idea of "fairness" toward a new model grounded on radical generosity and shared success, one that calls for each partner to contribute 80 percent to build the strongest possible relationship. Drawing from more than one hundred interviews with couples from all walks of life, stories from business and pop culture, scientific studies, and ancient philosophical insights, husband-and-wife team Nate and Kaley Klemp pinpoint exactly what's not working in modern marriage. Their 80/80 model of marriage provides practical, powerful solutions to transform your relationship and open up space for greater love and connection.

The 80/20 Principle, Third Edition

Be more effective with less effort by learning how to identify and leverage the 80/20 principle: that 80 percent of all our results in business and in life stem from a mere 20 percent of our efforts. The 80/20 principle is one of the great secrets of highly effective people and organizations. Did you know, for example, that 20 percent of customers account for 80 percent of revenues? That 20 percent of our time accounts for 80 percent of the work we accomplish? The 80/20 Principle shows how we can achieve much more with much less effort, time, and resources, simply by identifying and focusing our efforts on the 20 percent that really counts. Although the 80/20 principle has long influenced today's business world, author Richard Koch reveals how the principle works and shows how we can use it in a systematic and practical way to vastly increase our effectiveness, and improve our careers and our companies. The unspoken corollary to the 80/20 principle is that little of what we spend our time on actually counts. But by concentrating on those things that do, we can unlock the enormous potential of the magic 20 percent, and transform our effectiveness in our jobs, our careers, our businesses, and our lives.

The Fourth Turning

NATIONAL BESTSELLER • Discover the game-changing theory of the cycles of history and what past generations can teach us about living through times of upheaval—with deep insights into the roles that Boomers, Generation X, and Millennials have to play—now with a new preface by Neil Howe. First comes a High, a period of confident expansion. Next comes an Awakening, a time of spiritual exploration and rebellion. Then comes an Unraveling, in which individualism triumphs over crumbling institutions. Last comes a Crisis—the Fourth Turning—when society passes through a great and perilous gate in history. William Strauss and Neil Howe will change the way you see the world—and your place in it. With blazing originality, *The Fourth Turning* illuminates the past, explains the present, and reimagines the future. Most remarkably, it offers an utterly persuasive prophecy about how America's past will predict what comes next. Strauss and Howe base this vision on a provocative theory of American history. The authors look back five hundred years and uncover a distinct pattern: Modern history moves in cycles, each one lasting about the length of a long human life, each composed of four twenty-year eras—or "turnings"—that comprise history's seasonal rhythm of growth, maturation, entropy, and rebirth. Illustrating this cycle through a brilliant analysis of the post-World War II period, *The Fourth Turning* offers bold predictions about how all of us can prepare, individually and collectively, for this rendezvous with destiny.

Living the 80/20 Way, New Edition

Helps the reader to succeed personally as well as professionally, to make a good life as well as a living.

Meteorological Observations

2021 marks Dylan's 80th birthday and his 60th year in the music world. It invites us to look back on his career and the multitudes that it contains. Is he a song and dance man? A political hero? A protest singer? A self-portrait artist who has yet to paint his masterpiece? Is he Shakespeare in the alley? The greatest living exponent of American music? An ironsmith? Internet radio DJ? Poet (who knows it)? Is he a spiritual and religious parking meter? Judas? The voice of a generation or a false prophet, jokerman, and thief? Dylan is all these and none. The essays in this book explore the Nobel laureate's masks, collectively reflecting upon their meaning through time, change, movement, and age. They are written by wonderful and diverse set of contributors, all here for his 80th birthday bash: celebrated Dylanologists like Michael Gray and Laura Tenschert; recording artists such as Robyn Hitchcock, Barb Jungr, Amy Rigby, and Emma Swift; and 'the professors' who all like his looks: David Boucher, Anne Margaret Daniel, Ray Monk, Galen Strawson, and more. Read it on your toaster!

The Monthly Army List

Publishes in-depth articles on labor subjects, current labor statistics, information about current labor contracts, and book reviews.

How do we create new ways of looking at the world? Join award-winning data storyteller RJ Andrews as he pushes beyond the usual how-to, and takes you on an adventure into the rich art of informing. Creating Info We Trust is a craft that puts the world into forms that are strong and true. It begins with maps, diagrams, and charts — but must push further than dry defaults to be truly effective. How do we attract attention? How can we offer audiences valuable experiences worth their time? How can we help people access complexity? Dark and mysterious, but full of potential, data is the raw material from which new understanding can emerge. Become a hero of the information age as you learn how to dip into the chaos of data and emerge with new understanding that can entertain, improve, and inspire. Whether you call the craft data storytelling, data visualization, data journalism, dashboard design, or infographic creation — what matters is that you are

courageously confronting the chaos of it all in order to improve how people see the world. Info We Trust is written for everyone who straddles the domains of data and people: data visualization professionals, analysts, and all who are enthusiastic for seeing the world in new ways. This book draws from the entirety of human experience, quantitative and poetic. It teaches advanced techniques, such as visual metaphor and data transformations, in order to create more human presentations of data. It also shows how we can learn from print advertising, engineering, museum curation, and mythology archetypes. This human-centered approach works with machines to design information for people. Advance your understanding beyond by learning from a broad tradition of putting things “in formation” to create new and wonderful ways of opening our eyes to the world. Info We Trust takes a thoroughly original point of attack on the art of informing. It builds on decades of best practices and adds the creative enthusiasm of a world-class data storyteller. Info We Trust is lavishly illustrated with hundreds of original compositions designed to illuminate the craft, delight the reader, and inspire a generation of data storytellers.
